

# LaserCraft Technologies, Inc.

Complete Fabricating, Machining & Assembly

## Equipment List

### Laser Cutting

- 2—Mazak 4000 Watt Lasers (5' X 10' table)
- 1—Mazak 1000 Watt Laser (4' X 8' table)
- 1—Mazak 2500 Watt SpaceGear (specializes in 3-D and tube processing)

### Punching

- 1—AMADA PEGA CNC Turret Punch
- 2—PULLMAX CNC Punches
- 1—WHITNEY Single Station Punch

### Press Brakes

- 2—ACCUPRESS CNC Press Brakes (175 Ton X 12')
- 1—ACCUPRESS CNC Press Brake (100 Ton X 6')
- 2—ACCUPRESS CNC Press Brakes (60 Ton X 6')
- 1—PREMIER CNC Press Brake (60 Ton X 6')

### Machining Equipment

- 1—MAZAK QT250MY Turning Center
- 1—HAAS VF-3 CNC Machining Center
- 2—HAAS VF-1 CNC Machining Centers
- 1—Daewoo PUMA Turning Center
- 8—Conventional Mills
- 5—Conventional Lathes

### Robotic Welding

- 1—Fusion Arc Weld Cell

### Welding

- 8—Mig Welders
- 10—Tig Welders

### Further Processing

- 1—Winton RD20 eCNC Tube Bender
- 1—RUSCH Tube Bender
- 1—Plate Roll x 5'
- 1—Eagle CP40 Universal Roll Bender
- 2—Time Savers (36" Wide)
- 1—Time Saver—Wet (9" Wide)
- 1—ACCUSHEAR Shear (1/4" X 10')
- 1—Keyseat Broaching Machine
- 1—Harig Surface Grinder
- 2—FMB Horizontal Semi-Auto Band Saws
- 1—CLAUSAN Auto-Feed Production Band Saw
- 1—Empire Bead Blast Cabinet (24" X 36")
- 1—Bead Blast Room with Reclaim Unit (12' X 18'-Stainless only)

Finishes including but not limited to:

Powder coating, Bead Blasting, Anodizing, Zinc Plating, and Electro polishing

# LaserCraft Technologies, Inc.

*Complete Fabricating, Machining & Assembly*

***Welcome to LaserCraft Technologies, Inc., where our mission is to both meet and exceed our customer's expectations on every job. Thanks to our knowledgeable employees, LaserCraft can offer you an exceptional product at competitive pricing.***

## **DID YOU KNOW**

LaserCraft currently occupies a 92,000 square foot facility conveniently located off of I-85 in Gainesville, Georgia. We are staffed with over seventy employees working three full shifts, five days per week. This includes a dedicated customer service staff as well as an engineering and quality control department that specialize in overseeing your project from the design stage all the way through production, inspection, and finishing processes. We can take your ideas and put them into workable drawings, assist you in revising project drawings when necessary, and consult with you as to the best choice in materials to meet your needs in terms of both cost and quality. LaserCraft follows your order through the plant using customized manufacturing software that gives real time manufacturing information, allows your order to be expedited when necessary, and provides the tools to consistently deliver a quality product.

If your job requires further processing such as powder coating, anodizing or zinc plating, LaserCraft has a strong partnership with quality secondary processors and we can deliver a quality part finished to your specifications. Want it delivered on our truck or shipped via freight line? It's up to you. We put our customers first, and we are dedicated to making sure you are happy with your final product as well as your experience with our company.

## **TO OUR VALUED CUSTOMERS**

I want to thank you for your confidence in our ability to serve you. I welcome the opportunity to assist you in your business and look forward to a continued relationship which will be rewarding to all. Just in case you weren't aware of all that LaserCraft has to offer, I have included an equipment list & some helpful information about LaserCraft. With our live up to the minute job shop manufacturing software that takes us from quote to invoice, we can give you a quote with current market pricing to make sure you are getting the best possible value for your dollar. In these turbulent times, that just makes sense. Need 1, 100, or 1000 . not a problem! We have the equipment & staff to make your parts, your way, and get them there on time.

Best regards,

## **CAPABILITY SUMMARY:**

- Laser cutting 2D & 3D
- CNC Punching
- CNC Turning
- CNC Milling
- Shearing
- Saw Cutting
- Robotic Welding
- Welding (MIG, TIG, & SPOT)
- Forming
- Sand Blasting
- Rolling
- CNC Tube bending
- Hardware insertion
- Full Assembly
